Welcome

We have now had several successful years on the Internet selling quality salmon and steelhead flies and other fly fishing related sporting goods. Our original fly shop, [ADIPOS FLYTYTING](#), has exploded now offering over 150 different steelhead and salmon fly patterns. Fly tying has become much more than a hobby to us!

There has been a recent "awakening" in the fly tying industry to the concept of tube flies. Tube flies have been around for some time now, particularly in Europe. It's only recently that tube flies have been successfully fly fished on so many North American waters.

Several fly tiers (including ourselves) have been developing both new and traditional fly patterns and putting them on tubes. The only problem is that (to our knowledge) they are not yet readily available in fly shops and very limited choices are available on the internet.

As an already successful source for flies on the Internet, we felt that tube flies deserved their own place on the web.

We know that many of our customers are not comfortable ordering over the Internet. To make the process run smoother for those who are a bit apprehensive, we have produced this catalogue. Orders can now be phoned or emailed in. We can then create an invoice for you and confirm payment from there! Please note that because 75% of our business is in the United States, our listed prices are in US dollars.

Why buy Canadian Tube Fly Company Products?

- ◆ Serving customers since 2001 as The Canadian Tube Fly Company. Our "sister" company, *Adipos Flytying* has been serving fishermen and tyers since 1988.
- ◆ We are the only North American based supplier of a full line of quality tube fly components.
- ◆ We are constantly adding new web based tutorials and articles to promote tube fly tying. A great resource for your customers to go to learn about tubes.

Tube Fly Components

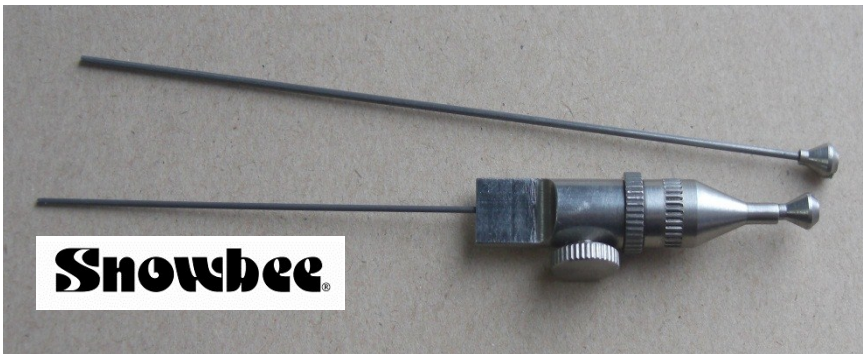

Tools

Tube Fly Vise Adapter

A universal adapter that will fit into the jaws of any existing vise. We have tens of thousands of tubes on this style adapter and have found this economic version out performs similar adapters. Complete in a crystal clear, re-sealable cello bag.

\$14.99

Snowbee Tube Fly Vise Adapter

A fantastic adapter put out by Snowbee's in the UK. Comes complete with two different sized Mandrels and will fit into any size existing vise. Complete in a crystal clear, plastic tube.

\$37.99

Eumer Tube Fly Vise Adapter

This little beauty comes complete with three different sized mandrels that secure in with two separate screw knobs. You also get two different sized graduated pins for specialty jobs!

\$24.99

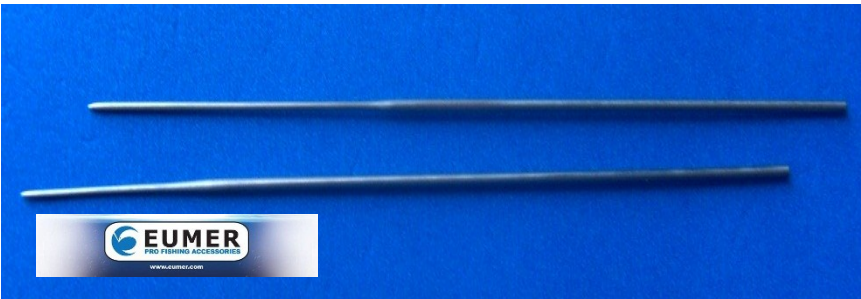

Tools

CTFC Tapered Pins

Nine tapered pins in three different gauges and two different lengths. These pins clamp into any standard vise and hold tubes securely. No more spinning tubes with these little beauties!

\$8.99

Eumer Tube Fly Vise Adapter

These stainless steel pins are graduated to really grab hold of your tube. Pins come in two sizes, one with the graduation starting at 3 cm, the other starting at 4 cm.

\$5.99

Plastic Tube Cutter

A nice little tool that takes the work out of cutting plastic tubing. When cutting plastic tube with scissors, the ends of the tube often will crimp the ends, making for an ugly finish to the tube. Using a razor blade to cut a nice clean edge can be a bit tricky too. This tool put the ease of scissors together with the nice clean edge of a razor blade.

Stainless Tube Kit * Extra Long

We have had many requests for longer metal tubes. Requests from salt water fly fishermen as well as anglers targeting large pike and musky have been the most vocal for a tube that can make a fly several inches long and stand up to the rigours of such aggressive species. We now offer stainless steel tubing in two different diameters and two different lengths, 3 inches and 4 inches. Because they are made from stainless steel, you don't have to worry about the tubes bending after being bounced off rocks or smashed by fish!

Complete with liner tube and junction tubing in barcoded clamshell package.

Hooks

Egret Tube Hooks

25 Premium tube hooks, available in size 2, 4, 6, and 8. After using several brands of tube fly hooks from Daiichi, Partridge, Mustad, and Eagle Claw, we've had these new hooks specially manufactured for us based on our own specifications. They are fairly heavy wired, though not as heavy as some other models. They have weight, but not enough to completely unbalance the back end of the pattern. We designed these with an extra large, straight eye to really grab onto the junction tubing.

Complete in a crystal clear, re-sealable cello bag.

\$5.99

Egret Octopus Hooks

25 Premium Octopus Tube hooks, available in size 1, 1/0, and 2/0. Similar to other companies' Octopus hooks, we designed these specifically to fish them upside down. When the eye is put in to the junction tube "straight", the bend of the hook can be pointed up. This enables your fly to bump of the bottom without getting damaged. A fantastic black nickel finish, we love these in saltwater too.

Complete in a crystal clear, re-sealable cello bag.

\$6.99

Powder Paint

Powder Paint Kits

A fantastic way to put bright finishes on any of the metal tube we offer. This custom blended paint allows you to provide a vibrant finish that is hard as a rock. Much more resilient than sprayed on paint.

All you have to do is put your metal tube on the end of a mandrel and heat it for about 10 seconds above an open flame. Dip the tube into the powder paint and the powder will stick to the metal and liquefy. If the tube is not hot enough, the paint will look grainy. If it is grainy, just reheat over the flame to smooth it out.

The kits come in either a fluorescent or glow in the dark selection of colours

\$6.99

Tube Fly Boxes

Double Sided Tube Fly Box

A new box that doubles up your fly box space. All flies held securely in place with our custom made stainless steel pins. All of the control is in your hands, pack the box as tightly or loose as you see fit!

\$29.99

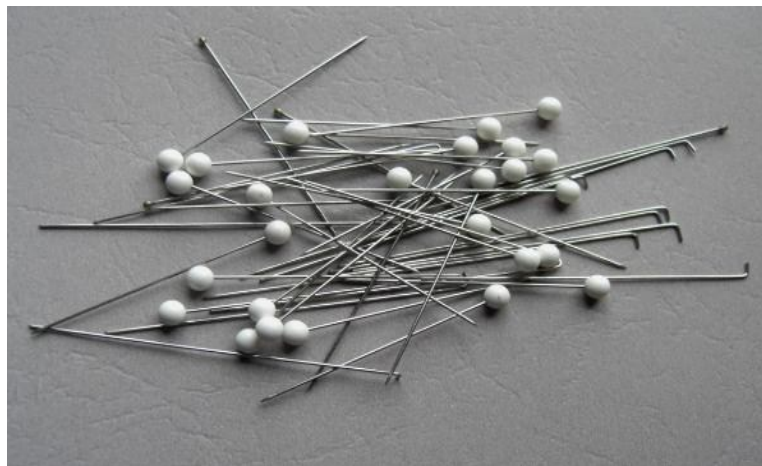

Deluxe Tube Hook Box

This pocket sized box allows you not only to hold 10 different sized hooks, there is also two longer compartments that are perfect for longer sections of junction tubing. The box is one hundred percent water tight and the lids on the compartment are spring loaded with stainless steel springs.

\$15.99

New for 2011!

Stainless Steele Pin Kit

Stainless Steel pins in a "kit" that can convert any foam fly box into a sturdy tube box. These straight, stainless steel pins, give you control over your box. Since you push the pins in, you control how tight you want to pack your box.

\$10.99

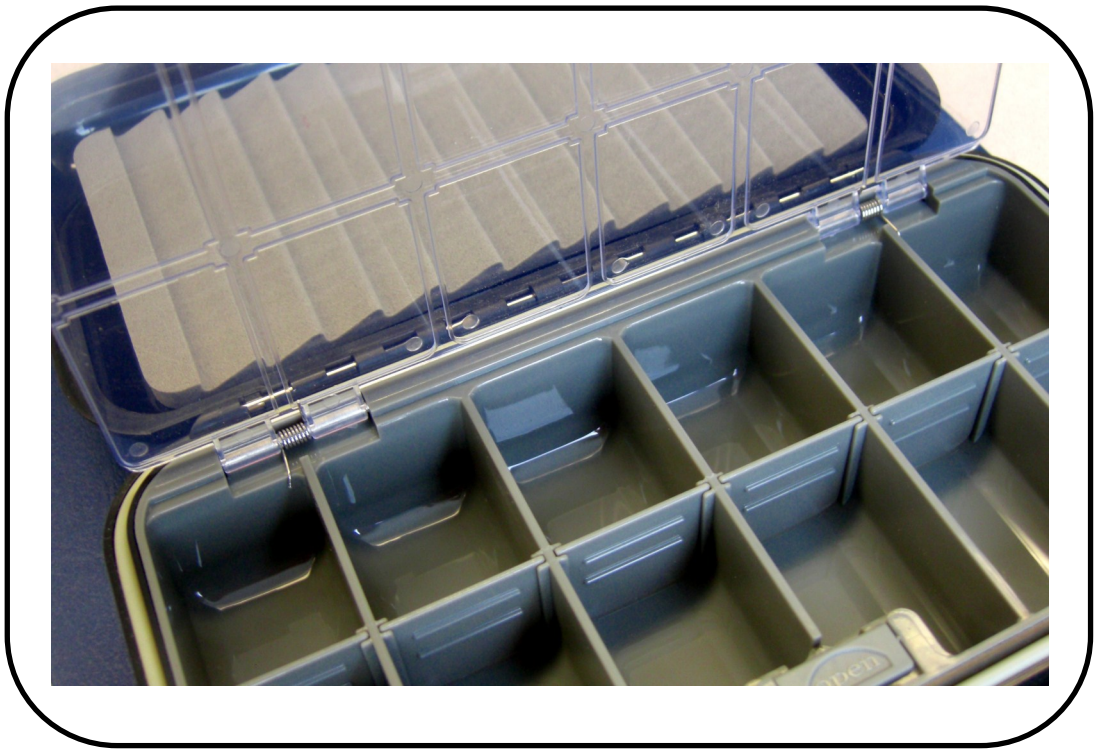

New for 2012!

C.T.F.C. System III Box

The C.T.F.C. Storage System III brings the compartment box together with a traditional ripple foam box that can be used for both tubes and standard fly patterns. This box is unique in that it can be used for all of your flies and leaves the option of how to stuff your box up to you!

\$32.99

Snowbee Tube Fly Box—Large

A new product from Snowbees that does a great job of holding tubes. Each spindle pivots to allow you to easily slip on your tube. Each tube is held in place by a spring loaded stainless pin and everything folds back down flat to protect delicate hackles and wings.

\$36.95

Snowbees Ttube Fly Box—Small

The same great aluminum box just smaller!

\$24.99

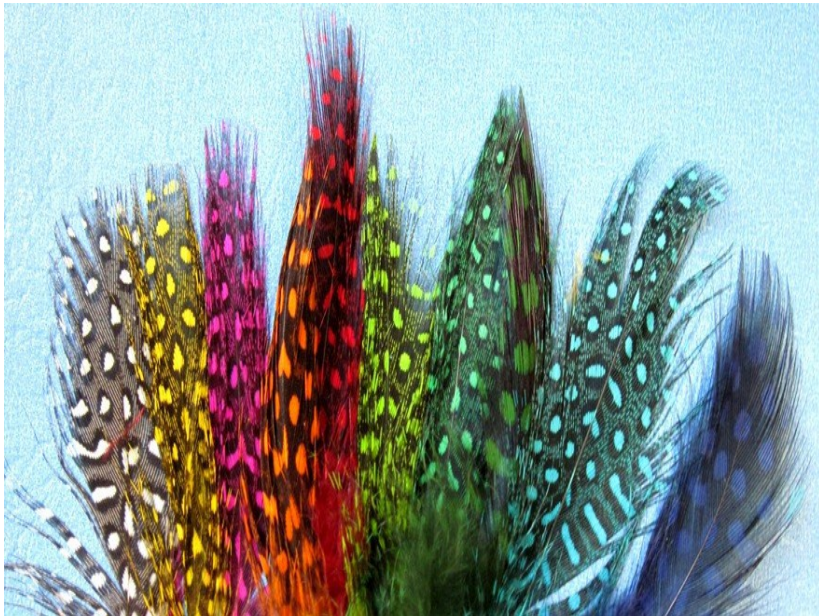

Snowbees Fly Wallet

A great way to store tube flies, hooks, and junction tubing. These wallets are perfect for tubes in that they keep all fragile feathers and fur securely intact. The zip pouches are extremely heavy duty and allow you to organize your gear as you see fit.

\$24.95

Plumage

Guinea Fowl Extra Long

This Guinea Fowl is the longest we have ever found. We pack the bundle of over 40 feathers in a 5 inch long bag and often we still have to bend the tips over a bit.
Available in 10 dyed colours.

Complete in a crystal clear, re-sealable zip bag.

\$3.95

Heron

The original spey feather (other than the extinct Spey Cock). If you have tied with Heron substitutes like Rhea or Blue Eared Pheasant, you will quickly notice how much better the original is!

Our natural Heron is the premium feathers that have been dyed over the natural chocolate colour. The dye jobs are strong, though they are covering a darker colour in most cases.

This gives the feathers a natural looking transition where the bright dye colour is very evident at the base of the plume and the colour gets darker as you move up the feather.

The stems are very supple and the feather quality is fantastic!

Available in two sizes, Large (5-7 inches) and small (3-5 inches). Available in 14 colours.

\$6.95

Grey Heron

These fantastic Grey Heron Plumes are beautiful. Absolutely what you are after for traditional Spey flies. These feathers come in packs of 5 and in two different sizes, Large-6-8 inches long, and Extra Large 8-11 inches. Available in 5 colours.

XL -\$8.95

L- \$5.95

Mallard Flank

These come complete in loose packages of between 50-60 feathers. They are not the standard mini pack of small feathers found in most fly shops., sizes range from medium to extra large for bigger flies and tubes. Available in 11 colours.

\$3.75

Complete in a crystal clear, re-sealable zip bag.

Select Mallard Spey

These plumes are hand selected from thousands. They are separated from the rest for not only their size but also for the thinness of their stems. Feathers come 10 to a bag and are available in several colours.

\$5.45

Complete in a crystal clear, re-sealable zip bag.

Gadwall

Gadwall is similar to teal though the barring is much more pronounced. These hand picked feathers come in packs of 10 and are available in several colours.

\$5.45

Complete in a crystal clear, re-sealable zip bag.

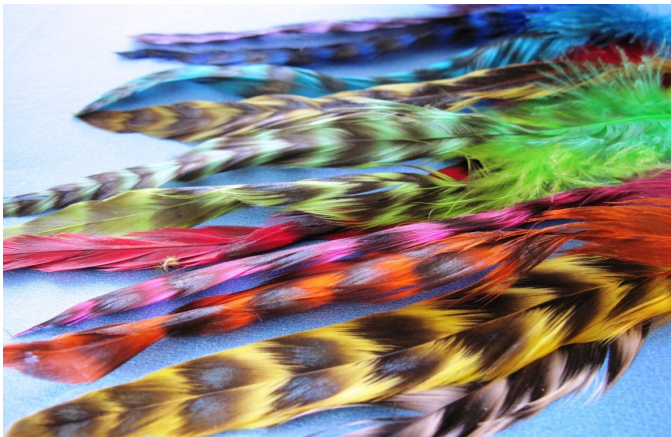

Schlappen

Sometimes called the "poor mans spey", our extra select schlappen comes from large birds that give you an extra long feather suitable for wrapping tubes. Available in 11 vibrant colours!

Stripped Peacock Hurl

Our new process takes a great deal of the fuzziness off of this peacock hurl. They work great as accents in wings. We then dye these bundles in five fantastic colours!

\$5.45

Complete with barcode in a crystal clear, re-sealable zip bag.

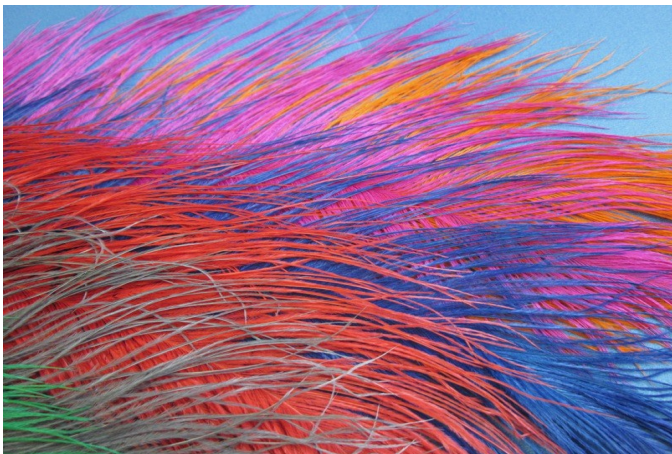

Rhea

We have finally found a quality supply of Rhea! These plumes are unique in that they have incredible length and are not nearly as fuzzy as ostrich. The perfect material for tying Intruders for large steelhead and salmon!

1st Grade - \$12.99
2nd Grade - \$8.99

Complete in a crystal clear, re-sealable zip bag.

Premium Ostrich Plumes

Chosen for their skinny barbs and then dyed with a process that takes most of the "fuzziness" off of the barb. The result is a feather that is very close to Rhea. These feathers are absolutely what you are looking for to make your Intruder flies come to life. Available in 12 colours.

\$5.99

Complete in a crystal clear zip bag.

Lady Amherst Tail Sections

These five inch long, Lady Amherst Tail sections are chosen from extra select, large tails. Many of the fibers measure out at over three inches long! The fibers add life to any long, webby pattern and are fantastic for intruders. Available in ten colours.

\$5.85

Complete in a crystal clear, re-sealable zip bag.

Winging Fur

Arctic Fox

Using fur with a natural taper is a must for many tube fly patterns. Our Select Fox Tail comes in 12 fantastic colours and has the same natural teardrop taper of the hard to find temple dog fur.

\$5.35

Complete in a crystal clear, re-sealable zip bag.

Snow Runner

A truly unique fur that has an incredibly length. Perfect for saltwater patterns as well as standard salmon and steelhead tube patterns. Available in 7 colours.

\$5.95

Complete in a crystal clear, re-sealable zip bag.

Canadian Coyote

A truly unique fur that has an incredibly soft base with long guard hairs. The denseness of this fur really makes it special. Available in 6 colours.

\$5.95

Complete in a crystal clear, re-sealable zip bag.

Canadian Raccoon

A long neglected fur when it comes to Scandinavian style flies. This plush fur is similar to Arctic Fox except for the fantastic guard hairs. Available in 6 colours.

\$5.95

Finnish Raccoon

One of the original 'Scandy' wing furs. This premium Finn Coon has a fiber that goes from dark at the base to an almost blond (in the natural fur) colour at the tip. Available in 6 colours.

\$5.95

Complete in a crystal clear, re-sealable zip bag.

Templedog Fur

The original winging fur for all tube flies. These fibers are superb in that they are both long and slight. This gives any pattern a pulsating motion in the current.

Sometimes called the marabou of the winging furs, the motion that templedog fur gives in the water has to be seen to be truly appreciated! Available in 13 colours.

\$8.95

Extra Long Templedog

The same fantastic fur as our regular templedog, only in extra select lengths for really long wings. Available in 13 colours.

Packaged in crystal clear, re-sealable zip bag.

\$11.95

Tibetan Lamb Fur

Many tiers like the slight wave of this fiber, it will give a wing more bulk. The pulsating action is also fantastic! Available in 11 colours.
